Practice Exam 1

Section 3: Abstract Reasoning
Questions & Answers in one booklet

30 questions • Suggested time: 30 minutes

How to use this booklet

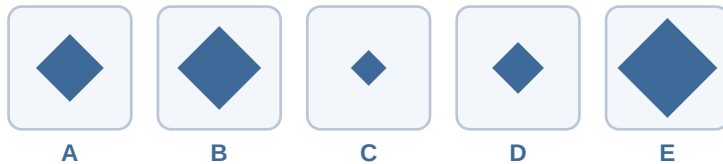

- Attempt the whole section first, under the suggested time, before looking at the answers.
- Then turn to 'Answers & worked solutions' to check your work and learn the 'why' behind each answer.
- If you got something wrong, cover the solution and try it again a day later.

Abstract Reasoning

Suggested time: 30 minutes

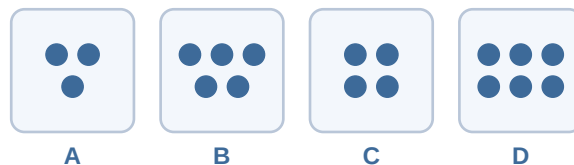

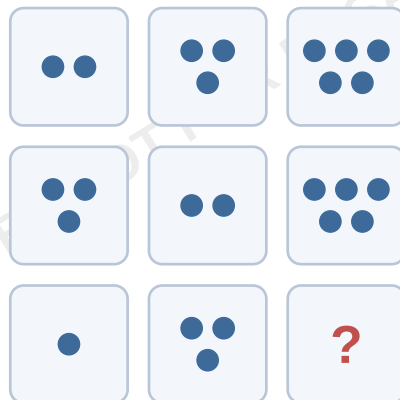

A non-verbal section. Each question shows a pattern or sequence in shapes. Work out the rule, then choose the option that completes it.

1. Put the five frames in size order. Which one (A–E) is the MIDDLE (median) frame?

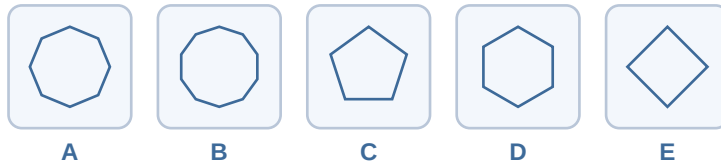

- A Option A
- B Option B
- C Option C
- D Option D
- E Option E

2. The grid follows a rule along each row. Which option (A–D) fills the missing box?

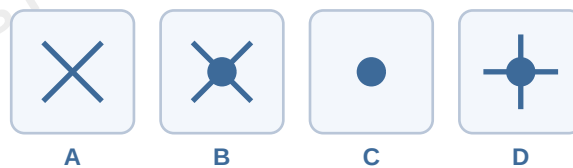

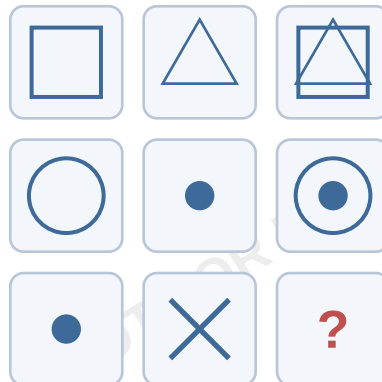

- A Option A
- B Option B
- C Option C
- D Option D

3. Four of these five figures share a hidden feature. Which figure (A–E) is the ODD ONE OUT?

- A Option A
- B Option B
- C Option C
- D Option D
- E Option E

4. Complete the grid: which of A, B, C or D fits the question-marked space?

- A Option A
- B Option B
- C Option C
- D Option D

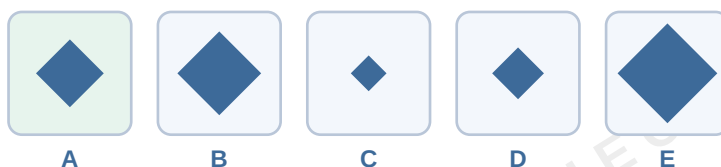

Abstract Reasoning

Answers & worked solutions

Answer Key

1 A	2 C	3 C	4 B	5 D	6 D
7 E	8 B	9 C	10 E	11 B	12 C
13 E	14 D	15 D	16 C	17 E	18 C
19 B	20 C	21 C	22 D	23 B	24 A
25 E	26 A	27 E	28 B	29 A	30 C

1. Put the five frames in size order. Which one (A–E) is the MIDDLE (median) frame?
[Middle of sequence]

✓ **Correct answer: A — Option A**

- Arrange the five frames into the simplest logical order — here, from smallest to largest.
- With five frames the 'middle' one is the 3rd: two are smaller and two are larger.
- Option A is that middle (median) size.

KEY TAKEAWAY The middle of an odd-numbered ordered set is the median — the value with an equal number of items on each side — not the average.
